enea

BY Lluscà Design

Structures

- Solid wooden legs (oak) Ø25/35 mm
- Die-cast aluminium seat base support L-2630 UNE 38-263
- Stainless steel footrests
- UNE-EN 16139-2015

Certificates

UNEEN 16139:2013/Corrected version 2015 (Level L2, heavy use).

Measures

Produced with wood from sustainable forests, Coma Wood has a 4-legged natural or stained oak wooden base. The seat can be made of polypropylene or engineered plywood, with the choice of either an upholstered seat pad or a fully upholstered seat structure. This model is available in three heights: a low one, a high one for cafes, bars and restaurants, and a medium-height one for more corporate and residential spaces.
