

A vibrant red chair is the central focus, with a red seat and a red leg visible. A red glittery object, possibly a shoe or a bag, is placed on the seat. The background is a solid red color, and the floor is a dark red. The lighting is bright, creating strong shadows.

Colours

Colours are never static, never boring, never quite the same.

Montana Mega gives you the perfect platform to create your personal colour combination.

With a fixed component design, it allows you to explore the 41 water based lacquers which Montana offers.

Montana colours have been developed in collaboration with colour expert Margrethe Odgaard, to have both a visual and sensory appeal, all intertwined in a close-knit family that will match no matter how you choose to combine them.
