

DESIGN BY DANIEL ENOKSSON

HAY

# TERRAZZO TABLE

## HIGHLIGHTS

- Part of a family of tables featuring round- and square steel tabletops and terrazzo bases in different outdoor powder coated colours
- The table features an electro-galvanized steel tabletop that makes it suitable for outdoor use
- Available with 2 different table tops
- Suitable for a wide variety of private and public environments
- Qualified for contract use

# TERRAZZO TABLE DESIGN BY DANIEL ENOKSSON

Swedish designer Daniel Enoksson's Terrazzo Table features a round- or square-shaped table top crafted in highly functional electro-galvanized steel and powder coated to make it extra resilient. For the designer, terrazzo was an obvious choice to use as the base, partly due to its excellent durable properties, but more importantly, it has such a unique and distinctive finish that makes an effective contrast against the stark simplicity of the table top. Designed to withstand the outdoor environment, the table is suitable for all kinds of indoor and outdoor use.

In the heart of Stockholm in 2008. A graduate of the Beckmans College of Design, Enoksson works in the fields of design and interior architecture. He has established a reputation as a collaborative designer, able to adapt to different briefs, one who seeks to create value for both the product user and for the manufacturer. His approach is often informed by user requirements, this helps to develop the functional and aesthetic characteristics of his designs. He has a particular fondness for unexpected materials and finishes, seeking ways in which to use them in production pieces. For HAY, Enoksson has designed the Terrazzo Table.

powder  
coated steel

Sky grey  
powder  
coated steel

### BASE

Grey terrazzo

Red terrazzo

## PRODUCT INFORMATION

DESIGN YEAR  
2016

---

COUNTRY OF ORIGIN  
China

---

### CONSTRUCTION

Fine marble and dyed cement are poured into a specially developed mould to create the unique terrazzo stone base. The stone is then hand polished, and protective gliders are placed underneath. The terrazzo base is joined to the sheet metal top by a long central bolt that runs through the pillar. Requires assembly.

## SUSTAINABILITY

At HAY, we believe good design should stand the test of time. That principle shapes the decisions we make – from the materials and suppliers we work with to the certifications we pursue to ensure our products meet recognised standards. We use recycled content where possible, FSC™-certified wood (FSC-C148805), and bio-based foam that helps lower our products' overall carbon footprint. We are also increasing the number of products certified with the EU Ecolabel and the Nordic Swan Ecolabel, reflecting our ambition to make lower-impact choices across our assortment. HAY follows strict regulatory requirements, and most of our products are tested to meet international standards for strength, durability, and safety.
